

Irish Strawberry Cheesecake

Garth McColgan

Irish Strawberry heaven

"When it comes to sumptuous Summer desserts, it's hard to beat a serious slab of cheesecake. This week's recipe is bursting with pure Irish goodness. The strawberries are supplied by established local growers – naturally – and are vibrant in colour and rich in flavour. All you have to do is ladle on fresh Irish cream for the ultimate, heavenly dessert, but that would be going a little too far. Or would it?"

"Piece of cake!"

"Going to have a dip at my Strawberry Cheesecake? Well, thanks to Aldi you needn't dip too far into your pockets – all the fruits, chocolates and goodies are there on the shelf, for a price that's a piece of cake!"
